FO 4413 / 6413
NATURAL RESOURCE POLICY

Instructor
Dr. Changyou “Edwin” Sun
325-7271, 363 Thompson Hall, csun@cfr.msstate.edu
MW 11:00 a.m. – 12:00 noon (office hour, or by appointment)

Class Schedule
MW 3:45 –5:00 p.m.; 208 Thompson Hall Annex

Course Description (Mississippi State University Bulletin)
(Prerequisite: Senior Standing). Three hour lecture. Current topics relating to natural resources policy which affect management decisions and practices in the public and private sectors of natural resources use.

Course Objectives
This course focuses on public policies of natural resources in the United States and briefly in the world. Policy process will be discussed in order to help conceptualize how policy is made. Participants in the policy process will be examined. Finally, various programs related to federal, state, private, and global natural resources policies will be scrutinized. This integration of process, participants, and programs should help students understand how public values and opinions about natural resources have been formed and developed into public programs. By the end of the course, students will understand
- The policy process for natural resources management;
- The participants in the policy process;
- Various policies and laws for federal, state, and private natural resources; and
- Some global forest policy issues.

Required Textbooks and Materials

Other reading materials will be assigned in class or posted on the course Web site.
Grading and Evaluation

<table>
<thead>
<tr>

<td>20%</td>
</tr>
</tbody>
</table>

Final grade determination will be based on the following scale:
A: 90.0-100%; B: 80.0-89.9%; C: 70.0-79.9%; D: 60.0-69.9%; F: < 60.0%

Notes on Lectures and Grading

1. **Lecture:** Lectures are primarily based on the materials assigned in class. Microsoft PowerPoint slides will be posted on the course Web site. You are STRONGLY encouraged to take good notes in class.

2. **Attendance:** Attendance is required as detailed in the University policy below. There is no direct score associated with attendance. Quizzes will give students incentives to attend class. For class absence with legitimate reasons, **written evidences or emails** should be submitted within **four days** of absence. In other words, **oral messages** will not be counted in any circumstances. Any form of evidence will not be counted after **four days** unless there are legitimate reasons.

3. **Exam:** The coverage of the 1st and 2nd exam will be announced in class. The final exam will be comprehensive. Missing an exam at the specified time is not allowed unless there is a legitimate excuse. If needed, make-up exams will be dealt with case by case.

4. **Quiz:** Quizzes will not be announced in advance. Missed quizzes cannot be made up no matter what the reason is. If a student misses a quiz with a legitimate excuse, that quiz will be excluded in the final calculation for that student. The student must give the instructor **written evidences** within **four days**. If a student misses a quiz without a legitimate excuse, the student will receive zero for that quiz.

Responsibilities

**Student:**
1. Read syllabus and other materials provided by instructor
2. Attend lectures and take good notes in class
3. Review notes periodically and ask questions if necessary
4. Learn (rather than memorize) the material presented by the instructor
5. Pass quizzes and exams and write a term paper.

**Instructor:**
1. Teach the course in a clear and understandable manner to encourage learning
2. Answer questions related to the course
3. Provide opportunities to practice methods covered by lectures
4. Accurately assess and report the level of understanding achieved by each student in the course.
**Attendance**

The official code of class attendance for the University is documented in the Academic Operating Policy and Procedure (AOP 12.09). Upon registration, the student accepts the responsibility of attending all classes and doing any work the instructor may prescribe. When absence from class is essential, the student is responsible for providing satisfactory evidence to the instructor to substantiate the reason for absence. The student is also responsible for making arrangements that are satisfactory to the instructor in regard to work missed. These arrangements should be made prior to the absence when possible. Among the reasons absences are considered excused by the university are the following:

- Participation in an authorized university activity.
- Death or major illness in a student’s immediate family.
- Illness of a dependent family member.
- Participation in legal proceedings or administrative procedures that require a student’s presence.
- Religious holy day.
- Illness that is too severe or contagious for the student to attend class.
- Required participation in military duties.
- Mandatory admission interviews for professional or graduate school which cannot be rescheduled.

It is the student’s responsibility to secure documentation of an illness from a physician. The documentation must contain the date and time the student sought treatment. Based upon the documentation, the instructor will decide whether makeup work will be allowed.

**Academic Dishonesty**

**MSU Honor Code:** “As a Mississippi State University student I will conduct myself with honor and integrity at all times. I will not lie, cheat, or steal, nor will I accept the actions of those who do.”

The official code of student conduct for the University is documented by the Bulldog Handbook. Several examples are listed in the handbook that illustrates the kinds of activities considered to be “academic misconduct” by the University. These include, but are not limited to:

- Using unauthorized materials (crib notes, books, etc.) as an aid during an examination;
- Looking at or using information from another person’s exam, report, or assignment;
- Providing assistance to, or receiving assistance from, another person in any manner prohibited by the instructor;
- Possessing or providing an examination or assignment, or any part thereof, at any time or in any manner not authorized by the instructor;
- Taking a quiz, examination, or similar evaluated assignment for another person; or utilizing another person to take a quiz, examination, or similar assignment in place of oneself;
- Submitting any course materials or activities not the student’s own, allowing such a submission to be made for oneself, or making such a submission for another;
- Using the ideas, organization, or words from a book, article, paper, computer file, or other source in any assignment without giving proper credit following accepted citation rules (plagiarism).

Sanctions for academic misconduct include a grade of “F” in the course and suspension from the University.

**Students with Disabilities**

If a student has a disability and desires any assistance devices, services, or other accommodations to participate in any activities associated with this course, please contact me, or call 325-0928 during normal business hours, as soon as possible to discuss the necessary accommodations.
Term Paper

FO4413 / 6413 Natural Resource Policy

Group Formation

Undergraduate students will form groups to work on the term paper; each group will have about three students. For graduate students, depending on the number of students enrolled and their backgrounds, either group or individual term papers will be allowed.

Topic Selection

Except the issue of forest fire, you can choose any topic related to natural resources policy for your term paper. The reason of excluding forest fire is that too many term papers have been written about this topic in the past. You are encouraged to discuss your topic selection with me if you feel uncertain. Some examples are listed below for your consideration.

- Best Management Practices in forestry: cost, implementation, and impact
- Institutional innovation to reduce the negative impacts from forest fragmentation
- Participation in governmental cost-share programs by non-industrial private forest landowners
- Non-timber outputs from forests and related policy issues
- Policies that motivate NIPF landowners to participate in wildlife-based enterprises
- Increasing appeals on forest planning and management of national forests

Outputs and Formats

The term paper must be typed; both a hard copy and a Microsoft Word copy are required for submission. The final paper should be at least ten pages long. It needs to be formatted into double space, 12 Times New Roman, and one inch margin. It should follow the style of a standard research paper (e.g., Journal of Forestry). At least eight references are required, and among them, at least four are from peer-reviewed journals (e.g., Forest Policy and Economics).

Evaluation

100 points; based on format, grammar, and content

Due Date

3:45 p.m. on Monday, April 15. Late papers will not be accepted.
