The Panola-Tallahatchie Forestry Association proudly presents

Forest Herbicides 101

A lecture by **Dr. Andy Ezell**, Switzer Distinguished Professor and Head
Department of Forestry, Mississippi State University

Date: **Monday, February 20**

Time: **5:30-6:30 PM**

Location: **Extension Building 294 Hwy 51 South, Batesville**

Things to know about herbicides

1. Products
2. Surfactants
3. Activity
4. Uses
5. Efficacy
6. Applications
7. Expected Results

Effective herbicide use can result in high survival and growth rates of desirable trees. This overview on herbicide use in forest management includes topics on available herbicides, best application situations and methods, application costs and benefits, safety measures, and environmental impacts. Mississippi landowners, foresters, loggers, and other natural resource professionals are encouraged to attend.

1.0 CFE credit, Cat A to foresters for MSBORF

1.0 CLE credit, Cat 1 to loggers
