

**MISSISSIPPI STATE
UNIVERSITY™
EXTENSION SERVICE**

Many landowners continue to pay more than their fair share of taxes on their timber income. Even forest landowners who use accountants need to understand how timber expenses and income are taxed, since some tax preparers are not well versed in special tax treatment for forestry. Knowing the tax laws will give you an advantage in planning your forest management activities. Recent changes in estate tax law will affect a small portion of landowners. A basic overview of estate tax, including gifts will be presented.

Individuals who require special accommodations to participate should contact the Yalobusha County Extension Office to make their request prior to the program. Contact should be timely to ensure appropriate accommodation.
